- C This bylaw applies to **ALL** practices and competitions, including regularly-scheduled pre-season and/or league contests, scrimmages, competition(s) with a non-CIF team, alumni games, jamborees, etc
- D. **ALL-STAR GAMES:** This does not apply to All-Star participation, which is governed in accordance with the guideline set forth in CIF Bylaws, Article 90.
- E. **OUTSIDE ORGANIZATIONS:** These bylaws are intended to apply to any CIF/CCS member-school team, student-athlete and coach.
1. It is recognized that many student-athletes choose to participate on outside sports teams or in sports instruction in sports in which they also participate in high school. Therefore, this is not intended to apply to private lessons or club sport activity which comes under the authority and governance of an outside organization or business in which a student chooses to participate.
 2. However, high school coaches involved in such outside programs shall not implicitly or explicitly require any student-athletes on their high school team to participate in such. It is recommended but not required that a school keep on file a "[Parent/Student Intent to Participate Out of Season Form](#)" and a "[Out of Season Coaches Statement of Compliance](#)" to certify that there has been no implicit or explicit requirement communicated to student-athletes to participate in an out-of-season program or team in order to qualify to participate on the high school team.
 3. The school name, insignia, official colors, equipment, facility and uniforms belong to the school and may not be used in capacity other than in CIF competition as allowed within the CIF, CCS, League and school governing documents. If teams or individuals competing in or practicing with an organization governed by someone other than the CIF, use school names, school mascot names, school uniforms or anything that in any way identifies them with a particular CCS high school, they shall be considered a school team regardless of their affiliation with that outside agency. No school equipment can be used by these outside teams or individuals except as otherwise specifically agreed upon by the school and the outside user in a written rental agreement.
 4. Outside "club" etc. activity involving student-athletes and/or coaches who also participate in high school sports, must be open to the community at large and the selection and placement on teams in this outside organization's program must be done without any consideration whatsoever of the participant's high school team affiliation. Outside "club" etc. activity shall not be used to circumvent these bylaws.
- F. **PRACTICE**
1. Interscholastic practice during the school year is defined as:
 - a. any school team or individual activity organized by the coach that is intended to maintain or improve a student-athlete's skill proficiency in a sport AND/OR
 - b. any school team or individual activity that includes skill drills, game situation drills, inter-squad scrimmages or games, *weight training-(during the season)*, chalk talks, film review, meetings outside of school time (excluding parent meetings). AND/OR
 - c. any other coach-directed or supervised school team or individual activity or instruction for a specific sport AND/OR
 - d. Any other team or individual instruction for a specific sport organized or supervised by any team member, or anyone else associated with the team or the school AND/OR tryouts.

Note: Any non-sport specific conditioning session which occurs outside the season of sport, may not be longer and 1.5 hours in length for any single student-athlete and may not be implicitly or explicitly required by anyone associated with the school. Outside club activities shall not be used to circumvent these rules.

2020-21 CCS Bylaws, Article V Approved Sports

2. Any single practice session shall be no longer than 3 hours in length and no more than four hours of practice are allowed on a single day; and no more than 18 hours of practice time per week.
 - a. In the sport of golf only, a team is allowed a maximum of two (2) days per week of 18-hole practice rounds (each day of 18-hole practice counts as one four (4) hour practice session.)
 - b. Any competition day for any sport would count as three (3) hours toward the allowable weekly and daily practice hours no matter the length of the contest(s). No practice may be held following the conclusion of any contest.
3. There shall be a minimum of three (3) hours between any two practice sessions in a single day. *Double Day practices shall not be held on consecutive days.*
4. Other mandatory activities (including, but not limited to study hall, tutorial sessions, team dinners), shall not be considered part of practice time. These activities must be approved by the principal. Activities that would be included herein are exclusive to any activity already covered in CIF Bylaws 506. C. (1)-(5) or in CCS Bylaws, Article V, Section 3.F. above.
5. This Bylaw shall not supersede any School/District/Section policies that may be more restrictive.

Note: OPEN GYM/FIELD/POOL

Any Open gym/field/pool should be an opportunity for members of the school community to use facilities in a non-formal, recreational setting. Guidelines should include, but are not limited to, the following:

- Open access to the school community
 - Not limited to a target group of student/athletes
 - Publicly advertised in some way
- Supervised by school personnel for safety reasons
- Cannot be mandatory
- Have no written or unwritten instructions or instruction

Frequently Asked Questions - (FAQ's will continue to be revised as needed appropriate to assist schools in understanding the implementation of the Bylaw. Schools seeking additional clarification should contact their local CIF Section office.)

Question: Our football coach conducts a one-hour (1) before school weight-lifting activity in the weight room for football players. (1). Does this count in the three-hours per school day practice limitation?
(2) Does this count as a double day of practice?

Answer: (1) Before school activities that are NOT part of the curricular day are subject to the practice limitations. If the activity is organized and/or directed and/or supervised by any of the football coaching staff and only open to football players then YES it is considered to be practice and counted in the daily limit.

Answer: (2) No this does not count as a double day of practice, since weight training is a conditioning activity not specific or unique to football.

Question: A (1) Volleyball or Football; (2) Cross Country; Coach tells their team members "just go for an hour run" as a team (or as individuals) and then meet back in the gym to begin practice. Does that hour of just running count towards the practice duration limitation for that day?

Answer: (1) & (2) Yes. This activity done as a team or as an individual and has been implicitly/explicitly required by the coach; directed and/or organized and/or supervised by the coach would count towards the daily practice duration limitations.

Question: A Basketball coach tells their team members that they are required to run a minimum number of miles each week on their own for conditioning. Does this count towards the practice duration limitations for any given day?

Answer: Yes, this would be considered an activity under CIF Bylaw 506. C.(2) and (4) and CCS Bylaw Article V, Section 3.F.1. because it was required and or implied to be required by the coach for his/her basketball team members to participate. If it was not implicitly or explicitly required by the Coach it would not count towards practice duration limitations.

Question: We have a one-hour (1) before school; (2) zero period; general weight-lifting activity in the weight room, advertised to all the athletes in the school who wish to participate. The football coach supervises this activity. While it is advertised to everyone in the school, it is primarily utilized by the football players. Does this count as practice activity in the daily practice duration limitation?

Answer:

(1) Before school is not part of the curricular day so activities during this time are subject to practice duration limitations. However, if the activity is a non-sport specific strength program, open to all athletes, it would be considered general conditioning and would not count as part of the practice duration limitations. As long as the school has done their best to advertise and make it open to everyone, and it is not a non-football hostile environment, or is not located in an area where female or other sport athletes do not have access (i.e. access only through the boys locker room), regardless of who attends or who is supervising, the activity would not be considered practice and would not, therefore, count in the daily practice limitation.

(2) If Zero period IS considered part of the curricular day then it does not count against the practice duration limitations.

Question: A student plays volleyball in the fall and basketball in the winter. During the overlap time of those two seasons is a student allowed to practice for four hours per day for volleyball and then another four (4) hours per day for basketball, for a total of eight (8) hours of practice on any given day?

Answer: No. During any season overlap period for any student-athlete, that student-athlete is still limited to a total practice time for both sports not to exceed the daily practice duration limitation [four (4) hours max per day and only 18 hours per week].

Question: The Water Polo Coach establishes a swimming conditioning session (1) before practice each day (2) in the morning before school; (3) during zero period; Does this count towards the practice duration limitations for that day?

Answer: (1) Yes, swimming conditioning is directly related to water polo skill development, so this would count towards the daily practice duration limitations.

(2) Yes, swimming conditioning is directly related to water polo skill development, so this would count towards the daily practice duration limitation and this would be considered a double day of practice since one of the practice sessions is before school in the morning, followed that afternoon by another water polo practice session after school.

(3) If Zero period is considered part of the curricular day it does not count against the practice duration limitations nor as a double day of practice.

Question: The Basketball Coach arranges for (1) a mandatory study hall for all athletes from 4-5:30 just before practice followed from 5:30-6:00 pm with film review or chalk talk about plays; (2) a film review at lunch time; (3) a meeting to discuss general team issues at lunch time.

A.1. Do (1), (2) or (3) count towards CIF's four-hour daily limit of practice time and/or CCS three hour for a single practice session time?

A.2: Does (2) or (3) count as two practice sessions? (a double day of practice)

Answer: A.1: (1) 4-5:30 does not count in the 4-hr daily limit nor the 3-hr single session limit: CIF Bylaw 502 states in 506.D. that study hall activities are not considered to be practice activity; 5:30-6:00 does count-Film review is part of practice activity and would count towards the four hour limit that day and also towards the CCS restriction of no more than three hours per single session.

(2) Yes it does count. Film review is considered a practice activity in both CIF and CCS bylaws and is governed by those practice limitations;

(3) No it does not count, CCS bylaws states meetings such as this held during the school day do not count towards practice (CCS Bylaws, Article V, Section 3.F.a.b.)

Answer: A.2: No (2) nor (3) followed by an afternoon/evening practice session does not constitute a double day of practices.

Declaration of the competitive level of school teams: The level of play for each school team must be declared by the school they represent: Varsity, Junior Varsity, Frosh/Soph or Freshman, in compliance with league bylaw requirements. For Associate member schools they must declare the level of their team(s): Varsity, Junior Varsity, Frosh/Soph or Freshman and payment of their CCS sports service fee will be their declaration until they play their first contest, whichever comes first.
 1. **No level of play changes:** Once a level of play for each team has been declared (playing at a particular level in the first contest of the season constitutes final declaration of the level of play for that team) they may not change their level of play during that season unless hardship circumstances occur as described below.
 2. **Hardships:** If hardship circumstances occur that are unforeseeable, unavoidable and beyond the coach, players or school's control, after the declaration of a team to be competing at a particular level of play, the Principal of the school may apply to their League Board of Managers to change a team's level of play for the remainder of the season. If any League Board of Managers approves a change in level of play for any team, that team may not, under any circumstances, change the level of play during that same season a second or third time.
 3. Competition between teams of different levels of play is allowed only under the following conditions
 - a.** Generally speaking, competition should be scheduled and held between teams at the same level of play (i.e. varsity playing varsity, etc.) Play between teams of different levels should be avoided whenever possible and only allowed if and when all other options have been exhausted and there is an overriding need or positive non-competitive outcome for an event, tournament, etc. which requires such inter-level play.
 - b.** If it is necessary or desirable for two teams of different levels of play to compete against each other the following will apply:
 - (1) **Tournaments:** If it becomes necessary due to the last minute vacancy in a tournament, for a team of a different level of play than the level for which the tournament has been scheduled (ie. a JV team is willing to fill a vacancy in a Varsity tournament), inter-level play in a tournament will count as follows:

2020-21 CCS Bylaws, Article V Approved Sports

- i.** The contest will count towards both teams maximum number of contests.
- For example: School A's Varsity plays a replacement JV Team from School B in the tournament schedule.
School A's Varsity team will count the contest in their Varsity team's max number of contests; and
School B's JV team will count the contest in their max number of contests.

The structure and format of competition in the tournament, which dictates how many contest in that tournament count towards the maximum number of contests will be followed accordingly;

- ii.** **CCS Playoff Selection and Seeding Process:** The Varsity Team will not be allowed to count that contest in their win/loss record nor in any consideration for CCS playoff qualification or seeding.

- iii.** If an opening occurs in a Varsity level tournament (or JV or Freshman) and a team in the tournament wishes to split their team into two teams to fill that opening, both contests will count towards the split team's maximum number of contests.

For example: School A enters a JV team tournament. Due to a last minute vacancy, they decide to split their JV team into two teams to fill that vacancy. Both games in which the split teams play count toward the JV max number of contests (2).

- (2) **For Dual Team competitions:** If it is the desire of two teams of different levels to schedule a contest, this inter-level play may be conducted and counted as follows:

- i.** When the inter-level play involves a Varsity team, the Varsity team playing a contest against a Sub-Varsity team shall count the contest towards their Varsity team's AND their JV teams maximum number of contests. The Sub-Varsity team will only count the contest towards their own team's maximum number of contests.

- For School A (Varsity Team): For example if a Varsity team from School A is playing a JV team from school B, the contest will count towards the maximum number of contests for both School A's JV & Varsity teams.
- School B (Sub-Varsity team): For school B, the contest will count towards the JV team's maximum number of contests only.

In addition, neither team may count the outcome in their season win/loss record nor can the varsity team use the contest in any form for CCS playoff qualification or seeding.

- ii.** When the inter-level play involves only sub-varsity teams (i.e freshman playing JV, etc.) the contest will count only for each team's original level of play.

- For example, School A's JV team needs more games and can only find a freshman team from School B to schedule a contest against.
- That game will count toward School A's JV team's maximum number of contests and School B's freshman team's maximum number of contests.
- Neither team may count the contest outcome in their season win/loss record.

- (3) **Such inter-level play** during any league season must be approved by the league commissioner under the conditions outlined above.

- (4) **CCS Playoff Selection and Seeding Process:** The Varsity Team will not be allowed to count that contest in their win/loss record nor in any consideration for CCS playoff qualification or seeding.

E.. Maximum numbers of contest per season of sport are established as follows:

In all sports every contest is counted contest for contest except where noted in tournament competition or other clarification as referenced below:

F If deemed necessary by representatives from a particular sport to change that sport's maximum number of contests; those representatives are encouraged to present proposals, along with appropriate rationale for changing that sport's respective maximum number of contests. Effective Fall, 1998, said proposals must be forwarded to the ADAC which will, at it's initial meeting of each school year, review all such proposals and subsequently develop appropriate recommending action to the Board of Managers.

G. Process for addressing probable excess of contests:

- 1 If sufficient time exists, schools may attempt to cancel participation in an individual non-league contest or tournament in order to avoid playing more than the maximum number of contests.

2020-21 CCS Bylaws, Article V Approved Sports

- 2 Schools who find themselves in jeopardy of exceeding their maximum number of contests may not cancel any league contest in order to be in compliance with this rule. If this causes them to exceed the maximum number of contests, the penalties outlined in "G" will apply.
- H. **Penalties for violations:** The following penalties will be applied to any school in violation of the maximum # of contests. The penalties outlined below will be applied to all teams at all levels of that sport offered at that school for a specific gender regardless of the level at which the violation occurred. (e.g. a violation by the JV Girls Basketball team would affect the Frosh/Soph, JV and Varsity Girls Basketball teams; a violation by the Varsity Boys Volleyball Team would affect both the JV and Varsity Boys Volleyball Teams, etc.).
- 1 A school not on probation for any previous violation of the maximum # of contests, that were in excess of the maximum # of contests in that sports shall:
 - (a) Forfeit their most recently played non-league win(s) equal to the number of contests in excess of the maximum # allowed in that sport, **AND**
 - (b) Be placed on probation for the following three seasons for all levels of that sport, for that gender, offered at their school (e.g. Girls Frosh/Soph, JV and Varsity Volleyball; Boys JV & Varsity Basketball, etc.); **AND**
 - (c) Reduce the number of contests the following season in that sport for all teams offered at that school by twice (2x) as many contest as they exceeded the maximum, without infringing on the regular league schedule (reductions shall not be made in the league schedule, only pre-season and tournament contests).
 - 2 While on probation as described in G 1.B. above, any school violating the maximum # of contests in any team in the program on probation, shall;
 - (a) Forfeit their most recently played non-league win(s) equal to the number of contests that were in excess of the maximum # allowed in that sport; **AND**
 - (b) Become immediately ineligible for CCS playoff participation in that sport for that year, if the violation is discovered prior to the beginning of CCS playoffs; or for the following year if the violation is discovered after the beginning of the CCS playoffs **AND**
 - (c) Extend their probationary status for the following three seasons from the point of the second violation (e.g. if a school violates the rule during their second year of probation, that school would be on probation for three years from the date of the second violation); **AND**
 - (d) Reduce the number of contests the next season for all teams in that sport offered at that school by twice (2x) as many contests as were in excess of the maximum # allowed without infringing on the regular league schedule. If the violation occurred during the season that was already reduced due to previous violation, the reduction would be cumulative without infringing on the regular league schedule (reductions shall not be made in the league schedule, only pre-season and tournament contests (e.g. violation 1 reduced this season to contests, during this season a second violation of 2 contests over 20 occurred. The next season the maximum # of contests would be reduced to 16. If the league schedule 18 games, the limit would be maintained at 18 to keep from infringing on the school's ability to meet their league obligations).
 - 3 If reasonable and sufficient time exists, appeals of penalties imposed under CCS V.3.G. above shall be directed initially to the school's league, which shall establish policies and procedures for such appeals and whose decision will be final

- B. The deadlines for submitting applications for CCS Tournament Sanctioning are as follows
Fall Season (Season 1) - November 20th **Spring Season (Season 2) - February 5th**

Some activities depend upon specified sport skills. Among these are hole-in-one contests for golf, basketball free-throw contests, baseball throws for distance and accuracy, and football punts for distance. Achievement in these activities depends upon an individual's athletic prowess in a particular sport. If this activity is an approved CIF sport, then a student may jeopardize the student's CIF eligibility if the student's participation violates the CIF amateur status or award rules.
- B. 1. No physical conditioning or practice sessions for football prior to the opening of authorized practice may be conducted by a high school, unless specifically authorized by the appropriate CIF Section. NOTE: CCS allows this activity during the summer.
 2. Participation in any other sports during the summer is governed by the nationally recognized authority for each sport, if such authority exists.
- C. During the summer period as defined by the CCS dates, the summer practices or activities shall not be implicitly or explicitly mandated for student athletes to participate.
